

Church Is Seeking
To Serve PeopleAnglican National Commission En-
gaged in Dominion-Wide
General Survey

The Anglican National Commission at Pincher Creek on Tuesday was attended by representatives from every parish in the Rural Deanery of Macleod, of which the Rev. A. D. Currie is rural dean. The members of the commission are the Bishop of Niagara, the Rev. Canon Gould of Toronto, and F. C. Gibbison, K.C., of Ottawa. They are making a survey of church conditions in every diocese in Canada, which will occupy a period of two years. At the meetings every person has an opportunity of expressing opinions on matters pertaining to church welfare, its administration, its weaknesses, and how its service to the people may be improved and made more generally useful and of greater influence for good.

The Commission's meetings are creating keen interest, and Tuesday's meetings brought forth some interesting viewpoints, one delegate voicing his opinion that the Bible should be modernized, that it was written centuries ago, in an era when conditions were vastly different from those prevailing today. Another frankly stated he could not accept some of the things we are asked to believe as part of the doctrine of the church. The views expressed by others denoted that there is serious thought being given by laymen in an effort to find why so many people fail to attend church or take an active interest in its work.

The Bishop of Niagara, in his closing remarks on the proceedings, stated that 35 years ago he had visited the west. Since those days many changes in the land and in the lives of the people have occurred, but the mountains remain the same as hundreds of years ago—no change there. So it is with the great fundamental truths of God; they remain the same despite the controversy that may ebb and flow. The final report on the survey will be made to the General Synod at its next meeting in 1932, and it will be looked for and read with keen interest by church people throughout the Dominion.

Attending the Pincher Creek meeting from this district were the Rev. A. D. and Mrs. Currie, Mrs. Cartwright, Corporal Weaver of Blairmore congregation and H. T. Halliwell of Coleman.

The Rev. Mr. Barlow of Brocket Indian school will preach at St. Alban's church on Sunday, the occasion being harvest festival services.

Board of Trade Notes

It is probable that the next luncheon meeting of the B. of T. will be addressed by Staff Capt. Steele, O. B. E., officer commanding Southern Alberta district of the Salvation Army. Capt. Steele is a very interesting speaker. During the war he was a military chaplain. Definite announcements will be made to members.

The city or the town you live in is the place to work for. The more interest you take in its various activities, the greater happiness you will obtain for yourself and others. It is the enthusiasm that gets the "kick" out of life. Work is no effort to him, for he is obtaining enjoyment in doing something useful. True enough—"Smile and the world smiles with you, weep and you weep alone."

BELLEVUE MINE BAND TAKES HONORS

(Western Canada Coal Review)

One of the features of the Calgary Stampede was a band contest open to bands representing outside points in Alberta. It might be noted that the judges awarded second place to a band composed of miners from West Canadian Collieries Limited, Bellevue.

Decision to form a band was reached by the men and it was later planned to attend the stampede and enter the band contest. In order to lend a local flavor they obtained permission to have a company truck, carrying a group of regular miners attired in their working clothes, accompany them, driving the 179 miles between Bellevue and Calgary.

In the parade the truck with its one ton load of coal attracted a great deal of attention. The band was later donated to the Herald Sunshine Fund for charity.

The band is composed of miners from the Greenhill and Bellevue mines and is known as the "West Canadian Collieries Band." Its leader is a fire boss at Bellevue, and all members are old employees of the company.

Aside from its entering contests this band is a greatly appreciated institution in the towns of the Crow's Nest Pass throughout the year.

A great deal of credit is due to the West Canadian Collieries Band, for its enterprise. In entering the Stampede musical contest it took second place, only losing to the first place aggregation by the narrow margin of one point. Later it entered the Lethbridge exhibition contest and here again secured second prize.

The cut accompanying this is published by the courtesy of the Western Canada Coal Review.

Harvest Festival at
St. Alban's Sunday Next

The annual harvest thanksgiving will be observed by holy communion at 9 a. m. and evensong at 7 p. m., with special music by the choir. Offerings of fruit or vegetables will be gratefully accepted at the church on Saturday afternoon. All members of the Anglican church are invited to take part in this important annual service of praise and thanksgiving, and a special appeal is made on behalf of the offertory, which is devoted to wards the support of the church.—Rev. A. D. Currie, Rector.

Pool Room Robbed

The pool room next to the Grand Union hotel was entered on Sunday night and the following goods stolen: 1250 cigarettes, 3 lbs. of hacco and one set of billiard balls. The entry was made by removing a pane of glass from a back window, and the burglar made his exit through the back door. The robbery was discovered on Monday morning by C. Sapeta, the proprietor, who immediately informed Constable Houghton. Investigation is being made.

Mrs. Robert Young, formerly of Coleman, now living at Granum, visited friends in Blairmore and Coleman during the week. On Thursday last she attended the wedding of Miss Vera Brown of Blairmore and Mr. Frank Vye of Hamilton, Ont. Mr. Young is manager of a store at Granum, and the district was favored with good crops this year, which has had a good effect on general business.

Announcement

Dr. McLeod wishes to announce that in future his hours for general practice will be restricted to the afternoons and evenings of each week-day. His time in the morning is entirely occupied in taking care of the children of the High and Public schools.

Airport is Asset
States BrintnellOperating Manager Western Can-
ada Airways Says Air Route
Across Rockies Planned

Writing from Winnipeg, W. L. Brintnell states: "We are very pleased to receive the information that you have a flying field at Coleman. This is certainly very enterprising on your part, and it is an asset to your town to have it. We are busy at the present time organizing the air mail between Winnipeg and Calgary, and, of course, the mail route through the Rockies is something for the comparatively near future."

"If our machines should be in your vicinity, we will be pleased to have them land on your airport. If there is any information we can give you, please write us."—W. L. Brintnell, Operating Manager, Western Canada Airways, Ltd. Capt. Fred McCall, D. S. O., M. C., D. S. F., managing director of Great Western Airways, writing from Calgary, expresses his appreciation of the interest taken by the Coleman Board of Trade in establishing a landing field here, and hoped to make a visit. He also mentioned that he was a resident of Coleman at the time of the Frank slide in 1908. He intended coming down with a plane on Oct. 6, but pressure of business prevented him, therefore Pilot McMullen was sent down.

Alex. M. Morrison returned this week from a business trip to various coast cities, imbibing the metropolitan atmosphere of Vancouver, Victoria, Seattle and other important centres. He states he thoroughly enjoyed the brief change, though the weather was somewhat damp in Vancouver.

Mr. and Mrs. J. Emmerson motored to Calgary on Friday to visit their daughter, Joy, who is attending Mount Royal College. Miss Verna McDonald and Miss Belle McCallum accompanied them.

Local News

Coleman Hardware Co. announced a special reduction on all old style heaters in their stores at Coleman and Blairmore.

Mrs. A. Easton of Granum and Mrs. R. Best, of Oxnard, California, were the guests of Mrs. J. L. Lonsbury for a few days this week.

D. O. Macko of the International office staff, was very sick the early part of the week, following an operation for the removal of tonsils.

Lieut. Meakings recently attended the big demonstration of the Salvation Army in Winnipeg to welcome General and Mrs. Higgins.

Alphonse Tiberghien is working at Corbin during the slack time in Coleman. He came down last week to attend the Tennis Club dance, in company with Joe Spivak and Jack Thompson.

Tuesday was a field day for direct mail advertising from city houses. The floor of the post office lobby was deluged with discarded posters.

A purveyor of cheap oilcloth peddling from door to door was recently stopped by Constable Houghton, and told he would have to pay a license or get out. The material he sold was dear at any price.

At times the uncharitable or those who have never known the humility which people suffer from unemployment, discuss the thought from their minds with a remark to the effect that there is work for everybody if they look around. It is interesting to read the following remarks by David Lloyd George, war time premier of Great Britain: "Unemployment, with its injustice for the man who seeks and thirsts for employment, who begs for labor and cannot get it, and who is injured for failure he is not responsible for by the starvation of his children—that torture is something that private enterprise ought to remedy for its own sake."

Hitting the
Nail Hard!

Walker's big department store published in the Los Angeles Examiner one advertisement filling sixteen pages. That interests publishers and merchants.

R. M. Walker is a business man who realizes that it does not pay to whisper if you can afford to shout.

His proud announcement "Established in Los Angeles for twenty-four years," reminds you that Los Angeles has built one of the world's great cities while the children of one generation have grown to manhood.

Twenty-four years in Los Angeles is equivalent to 160 years in New York or 1,000 years in Rome.—Herald Examiner.

Mrs. Fred Thom and children left on Friday for Chaminas, B. C., after ten years residence in Coleman. Mr. Thom and the oldest boy, Vernon, left a few months ago, and have since been working at Chaminas. Mrs. Thom took an active part in St. Alban's church, being a member of the choir, and at different times she was secretary and president of the Women's Auxiliary. On Thursday evening the ladies met at the rectory, and a presentation was made in appreciation of her faithful work for the church. Their Coleman friends join in wishing them success in their new home.

Dental Service For
School ChildrenBoard Decides Children to Have
Benefit of Dental Work as Aid
to Health and Study

Dr. McLeod has been appointed to look after the dental needs of the high and public school pupils. The need of such service is readily apparent. Statistics prove that 80% of children in school require dental service, whereas not more than 5% receive any attention in communities where no service is provided by the board.

The City of Calgary provides three operators, three assistants and has the co-operation of ten public health nurses.

This work will be carried on in Dr. McLeod's office from 9 to 12 a.m. each day. With the co-operation of the teachers the children will come to the dental office as appointed. No charge is made to the parents for this service, the cost being assessed by the school board against the school district. The action of the school board will commend itself to the great majority of the ratepayers, for it will provide a service to a large number of children whom otherwise would be unable to obtain it, and its benefits will be many in health and progress in school work.

Notice of Annual Meeting

The annual meeting of Coleman Crystal Rink Ltd. will be held in the Council Chamber, on Monday, Oct. 21, at 7:30 p. m. Business—receiving annual statement and election of officers.

H. C. McBurney, President.

What Is Education?

Educational policies and educational methods are today the subject of world-wide investigation, study and discussion, and particularly so in all English-speaking countries. Perhaps in no previous period has the subject of education received more attention from the masses of the people. To a greater extent than ever before parents are showing a real interest and deep concern. They are in a questioning and questioning mood, anxious to know whether accepted policies, systems and methods are productive of the best results.

It is also true that our schools and higher institutions of learning are costing more, and that the bills which have to be met by the taxpayers in order to provide and maintain school systems are mounting year by year, and already constitute a large percentage of the annual tax levy. The vast majority of taxpayers do not object to this if—and this is the vital matter—they are obtaining decidedly better results in the education of the younger generation, and all that they have a right to expect from such increased expenditures.

The higher standard of living now so universal, as contrasted with thirty, forty, fifty years ago, has the effect of enabling parents to give their children high school and university training to an extent hitherto unknown. Tens of thousands of children now proceed to high school, colleges, and colleges who not so long ago would have completed their academic training when they finished with public school. And the demand is for still greater facilities for secondary education, especially for those resident in rural areas and the smaller hamlets and villages scattered all over the land.

The question arises in the mind of many: Are all these young people being truly educated? Are the thousands of young men and women annually gathering from our universities with the right to add B.A., M.A., and other letters after their names educated in the truest and highest acceptance of the word? Or are they merely equipped with certain tools which many of them do not know how to use for their own advancement and the welfare of the human family?

Dr. George A. Coe, veteran educationalist of Northwestern University, and recently retired from Teachers College, is convinced that a good education is education for good living. "What an absurdity it would be to certify as well-educated a youth who has never been socially awakened,—well-educated, yet negligible as far as social well-being and social progress are concerned," Dr. Coe presents "ten points" by which a truly educated man can be detected, which are worthy of consideration:

1. An educated man is one who is trained to use the tools of human intercourse with wisdom and accuracy. We mean, especially, language and the rudiments of number.
2. An educated man must be able to study and to think without guidance from others. He must be—to some extent—a thinker, not a mere imitator.
3. An educated man must have sufficient knowledge of nature to understand the main processes upon which human life and happiness depend.
4. An educated man knows enough of history to enable him to understand the main achievements of man.
5. An educated man is acquainted with the major resources for intellectual and esthetic enjoyment. He knows nature, literature, music, and the other arts sufficiently to choose superior to inferior enjoyments.
6. An educated man is marked by his interests as well as by his trained abilities. His attention is habitually attracted by significant rather than trivial objects, events, pursuits, and enjoyments.
7. An educated man must have not only this general culture, but also training for a specific occupation. Focalized activity that is directed toward some sort of efficiency has to be included.
8. An educated man must have toward his fellows the habitual attitudes that are commonly called ethical,—such attitudes as honor and honesty, helpfulness and good-will and co-operation.
9. An educated man must have loyalties to at least some of the important organizations and institutions of society, such as one's family, one's country, one's church.
10. If there is an inclusive meaning in life, the sort of education that I have been outlining should include some apprehension of, and feeling for, the divine; the ideally educated man will reverence God, and know how to worship.

Sherwood Eddy, who quotes these "ten points" by Dr. Coe, in his recently published symposium on "The methods, purposes, and results of American colleges and universities," suggests, in order to determine whether one's education is still alive and growing,—and it should always be alive and growing, not a dead and finished thing, if it is real education,—answering the following questions:

1. Am I learning to study and to think?
2. Am I getting the knowledge that I need most? Am I learning to enjoy things that are most worth while? Am I acquiring esthetic appreciation of the significant values of life?
3. Am I living in the real world or in a corner apart? Am I learning to live by living now; by acquiring some vital knowledge of the world and its real problems, by actually facing them and beginning to try to solve them now? Or am I evading or postponing life, playing about with its trifles in a thoughtless and unreal academic world?
4. Am I progressing, standing still, or going backward?

The dome of St. Paul's Cathedral, London, England, weighs 64,000 tons.

Reduce the Acid

Sick stomachs, sour stomachs and indigestion usually mean excess acid. The stomach nerves are over-stimulated. Too much acid makes the stomach and intestines sour. Alkali kills acid instantly. The best form is Phillips' Milk of Magnesia, because one harmless, tasteless dose neutralizes many times its volume in acid. Since its invention, 50 years ago, it has remained the standard with physicians everywhere.

Take a spoonful in water and your unhappy condition will probably clear in five minutes. Then you will always know what to do. Crude and harmful methods will never appeal to you. Go Alkali kills acid instantly. The best form is Phillips' Milk of Magnesia, because one harmless, tasteless dose neutralizes many times its volume in acid. Since its invention, 50 years ago, it has remained the standard with physicians everywhere.

To Return German Property In Canada

Gross Value Of Holdings In Dominion About Thirteen Millions

German property in Canada taken over during the Great War will be returned as a result of The Hague settlement, to which the Dominion is a party.

Thomas Mulvey, K.C., custodian of enemy property, will leave shortly for Berlin to conclude the details of the transfer. The gross value of German property in custody in Canada is said to be approximately \$13,000,000, comprising real estate, bonds and corporate securities.

India Buys Canadian Grain

First Shipment To Be Made From Montreal Shortly

Thirty-two thousand quarters of grain will be shipped from Montreal to India in the near future at a carrying charge of 22s. 6d. per ton, it is announced by Thomas Harding and Son, agents of the S. S. Zurichmoor. It is believed this will be the first consignment of Canadian grain ever shipped to India. The local agents have not yet been notified of the particular type of grain required.

WAS ALWAYS AILING NEVER FELT WELL

Health Restored Through the Use Of Dr. Williams' Pink Pills

"I am one of the many who have found new health through the use of Dr. Williams' Pink Pills," says Mrs. Everett Dowse, South Nelson, N.B. "For some years I never felt well, and at times was so weak that I would be contented to stay in bed. I was in an ailing condition and found it difficult at all times to do my household work. I was subject to headaches, poor appetite, breathlessness at the least exertion, and very pale. Before Dr. Williams' Pink Pills were recommended to me I had tried several medicines and felt that I would always be an invalid. A friend strongly urged me to take Dr. Williams' Pink Pills, and finally I consented to do so, but without much hope that they would help, where other medicines had failed. But in this, to my joy, I was mistaken. I had not been taking the pills very long when I knew they were helping me. As I continued their use I found my appetite improving, I slept better at night, my strength was gradually returning. I continued taking the pills for several months, when I again found myself a well woman, and I believe that had it not been for Dr. Williams' Pink Pills I would today be a helpless invalid. The pills have since been taken by others in our family, with the same beneficial results. I strongly urge every weak woman to try this grand health-building medicine."

If you will send your name and address to Dr. Williams' Medicine Co., Brockville, Ont., a little book, "Building Up the Blood," will be mailed you postpaid.

You can get these pills through any medicine dealer or by mail at 50c. a box from Dr. Williams' Medicine Co., Brockville, Ont.

Egg-Marketing Record

New records for the co-operative marketing of eggs in the western provinces have been established for the first eight months of 1929. To August 31, the Canadian Poultry Pool, Limited, the central selling agency for the western provinces, has handled more than 7,000,000 dozen eggs.

As a verminiferous effective preparation is Mother Graves' Worm Expeller, and it is the most delicate child without fear of injury to the constitution.

To Exchange Ambassadors

Great Britain Has Entered Into Agreement With Russia

Great Britain and Russia have agreed to an exchange of ambassadors, thus paving the way for full resumption of trade and commercial relations between the two countries. The agreement, which is subject to parliamentary approval in England, was reached in a secret meeting at Lewes, England, between Right Hon. Arthur Henderson, foreign secretary of Great Britain, and Russian ambassador, Valerian Dolavsky, who came from his Paris post.

The Oil Of Power. — It is not claimed for Dr. Thomas' Electric Oil that it will remedy every ill, but its uses are so various that it may be looked upon as a general pain killer. It has achieved that greatness for itself and its excellence is known to all who have tested its virtues and learned by experience.

Real English Pantomime

Colossal British Production, "Humpty Dumpty," Coming Soon

Old Country folk who have long craved to see a real English pantomime, and Canadians who have heard so much of these sumptuous musical entertainments from friends will welcome the new that is a British production, Mr. Philip Rodway, has had the courage to send us one of these colossal productions in "Humpty Dumpty," which will be seen at the Grand Theatre, Regina, for three nights and Wednesday matinee, commencing October 21st.

When "Humpty Dumpty" was presented in Toronto, it was an instantaneous hit which is proven by the following from the Toronto Daily Telegram.

"This season's triumphant march of the British theatre into the hearts of Canadians made notable progress last night when a large audience at the Princess Theatre acclaimed Philip Rodway's presentation of the Birmingham Pantomime Company in the musical pantomime extravaganza, "Humpty Dumpty." A story drawn from fairyland it is, but that it appeals to young and old—a message of good cheer and optimism, with new faces and new songs, diverting, wholesome, fascinating.

"Wee Georgie Wood, of course, is the star of the show. The diminutive player is a gifted actor exuding personal magnetism, with that rare ability to change a crowded scene from merriment to pathos merely by altering the expression of his face or the tone of his voice. He can build up scenes of interest in some comic or other till it soars high, and then crash it down in a heap with a light-nike flash of irresistible wit. His smile is impish in its compelling good humor. Then, in an instant, he adopts a mask of sadness, and the composite face of all the little boys ever lost in snowstorms tears at the heart-strings of the audience. His part is that of "Humpty Dumpty," a nondescript lad out of a broken egg. Few who see it will forget his classic imitation of a boy in the process of being crushed by a milkmaid's pail. Mother later as a Scotch lassie with a dog, his antics are inimitable and his Highland accent, by the way, worthy of Lauder himself. Furthermore, Al Johnson never knew as well as "Wee Georgie" how to talk to an audience in intimate fashion. It is some feat to get a Toronto theatre singing unaccompanied songs. "Wee Georgie" did it last night at the Princess."

Two pieces of broken Indian pottery, the first reported found in the region, were recently discovered in Rocky Mountain National Park.

A Severe Attack of Dysentery Checked by 4 Doses

Mr. I. Burtonwood, 620-22nd St. W., Saskatoon, Sask., writes: "My child, when only seven months old, had a very severe attack of dysentery. After three days' treatment with other things we decided to use On this day his bowels had moved twenty-three times in eleven hours. In four doses checked it."

"A short time ago we offered it to a neighbor whose baby was troubled, and it too was relieved within thirty hours."

"We both always keep a bottle of Dr. Fowler's at all times. This medicine has been on the market for over 80 years; put up by Dr. T. Milburn Co., Ltd., Toronto, Ont."

Splendid Progress Made on Prairie Branch Line Project

Work Being Rushed On 418 Of The 568 Miles Authorized

Construction on the branch line programme of the Canadian National Railways on the prairies has proceeded in a particularly satisfactory manner during the summer, according to an announcement made by H. A. Dixon, chief engineer, western lines of the company. Work is in progress in practically every section of the programme authorized by Parliament at its last session, stated Mr. Dixon.

Saskatchewan and Alberta a total of 568 miles of new line was authorized and of this mileage work is progressing on 418 miles.

On the Aberdeen-Melfort line, 25 miles of steel already have been laid in an easterly direction from the junction with the Cudworth subdivision at Wakaw. In a number of cases grading is as much as 70 per cent. completed. Mr. Dixon says that there will be a continuance of this work on all branch lines as long as weather conditions permit.

Although the programme was one of the heaviest ever undertaken by the company, only 150 miles have had no work done on them. However, plans are prepared to begin work on this mileage next year, and the assurance is given by Mr. Dixon, that the programme will be fully completed within the three year period defined by parliament.

In addition to this programme the company has also succeeded in putting steel into the Sheritt-Gordon Mine over the branch line authorized last fall, and is practically completed within the three year period defined by parliament.

In addition to this programme the company has also succeeded in putting steel into the Sheritt-Gordon Mine over the branch line authorized last fall, and is practically completed within the three year period defined by parliament.

Work done on the prairie branch lines during the summer, this work including only the three year programme, 1929-32, may be summarized as follows:

Melfort-Aberdeen branch, 88 miles. Grading 70 per cent. completed, and 25 miles of steel have been laid easterly from the junction with the Cudworth subdivision at Wakaw. Balastrating operations are now proceeding on the track.

Maver south westerly branch, 50 miles. Grading on this branch is about 20 per cent. completed. A material yard has been constructed at Maver for the purpose of assembling materials for track laying.

Nedapah-Swift Current branch, 50 miles. Grading on this branch is about 60 per cent. completed and a material yard has been constructed at Nedapah for the assembling of track laying material.

Hanaruka-Scapa branch, 41 miles. Grading on this branch is about 10 per cent. completed and a material yard has been constructed at Scapa. Grading on the branch is about 65 per cent. completed and a material yard has been laid out at Scapa where track laying material is now being assembled.

Unly south-westerly branch, 50 miles. Grading on this branch is about 45 per cent. completed and a material yard has been laid out at Unly where track laying material is now being assembled.

Hamlin-Glenhush branch, 33 miles. Grading on this branch is about 15 per cent. completed and a material yard is being built at Hamlin.

St. Walburg-Bonnyville branch, 128 miles. Grading on this branch is about 10 per cent. completed and a material yard has been constructed at Bonnyville for the assembling of track laying material.

Ridgedale easterly branch, 30 miles. Tenders for clearing, grading and installation of culverts on this branch are now being asked and a start will be made at all times.

Bulwark easterly branch, 25 miles. No work will be done on this branch before next year.

Alliance south easterly branch, 95 miles. No work will be done on this branch before next year.

Works In Reverse

The butterfly is an insect whose heart beats backwards as well as forwards, according to Prof. John H. Gerould. The beat starts at the back and travels forward, squeezing the blood on ahead of it. After repeated the several times the heart will pump and then a beat will start at the forward end, forcing the blood in the opposite direction.

The walking speed of the average man is about three miles an hour.

For Sprains — Use Minard's Liniment.

Acids in Stomach Cause Indigestion

Medical authorities state that nearly nine-tenths of the cases of stomach trouble, indigestion, sourness, burning, gas, bloating, flatulency, etc., are due to an excess of hydrochloric acid in the stomach. The stomach lining is irritated, digestion is delayed and food is not properly absorbed. The symptoms which every stomach sufferer knows are: heartburn, sourness, gas, or pain. Unpleasant Magnesia takes a little water right after eating. This neutralizes the stomach, prevents the formation of excess acid or even no acid (or milk), is harmless to the stomach, efficient form of magnesia for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion.

May Emblazon Honors On Regimental Colors

Canadian Regiments Have Received Sanction From King George

Final approval has now been secured from His Majesty the King for the emblazoning on the regimental colors of Canadian permanent and non-permanent active militia units, the honours won by these regiments during the Great War. At present 68 regiments have been given definite sanction to embroider these honours on their colors, and in due course the remainder of the militia will receive authority according to the qualifications of the regiments concerned.

Thus a question that has consumed several years and that has involved little short of scanning the war records of almost every one of the 600,000 Canadians who served in the Canadian Expeditionary Force, is settled once and for all. Every one of the "fighting" battalions of the Canadian Corps—50 in number—is perpetuated in the non-active militia (exclusive of the three infantry regiments of the permanent militia). The perpetuating unit, therefore, has been accorded the right to carry the honours won by its corresponding Canadian Corps battalion.

Four militia regiments in Manitoba, five in Saskatchewan, and five in Alberta, have been given authority to carry the battle honours in this, the first allotment made.

If Miller's Worm Powders needed the support of testimonials they could be got from mothers who know the great virtue of this excellent medicine. Boys and girls will speak for themselves and in such a way that there can be no question of them. They act speedily and thoroughly, and the child to whom they are administered will show improvement from the first dose.

Sunspots Vary In Number

Sunspots vary in numbers in a period of average length of eleven and a half years. The weather is found to vary along with these changes in the sun, in some localities quite definitely. As a result living conditions vary with consequent effects on birds, animals, trees, grain growth, and economic conditions.

An Oil Without Alcohol.—Some old and many medicines have alcohol as a prominent ingredient. A judicious mingling of six essential oils compose Dr. Thomas' Electric Oil and there is no alcohol in it, so that its effects are lasting.

Poor Year For Tree Seed

The season of 1928 was a poor one for the collection of forest tree seed throughout the western provinces, and orders received by the Forest Service of the Department of the Interior, Ottawa, for seed could be filled only in part.

RAISE QUESTION OF THE FREEDOM OF THE SEAS

New York.—President Hoover in his conversations with Rt. Hon. Ramsay MacDonald, premier of Great Britain, raised the question of the freedom of the seas and British naval stations in western Atlantic waters, according to a special Washington despatch in the New York World. The World story says:

"From an unimpeachable source the World learns that during the Rapidan conversations, after naval tonnage questions had been discussed, President Hoover, to Premier MacDonald's surprise, raised the question of freedom of the seas.

"President Hoover explained his fears of adverse Senate action on the naval treaty and the necessity of dealing with problems of sea law and suggested invocation of the world court." Mr. MacDonald explained the reasons why this was difficult for Great Britain but promised immediately upon his return to London to open negotiations on this question in all its aspects.

"Mr. Hoover, according to the World's authority, discussed British naval bases in the Caribbean and at Halifax. Before his official visit closed, Mr. MacDonald was able to secure a statement from United States naval sources that these bases are not regarded by American admirals as a menace to the United States, but he promised to discuss this subject at Ottawa and raise it at once on his return to London.

Along the same line, a special Washington despatch to the New York Post said:

"Washington gossip, in well-informed circles, has it that there is a possibility of the prime minister's departure being capped with a gesture of peace and goodwill in the grand manner, to consist explicitly of an offer to de-militarize the British naval bases at Bermuda, Trinidad and Jamaica, and possibly Halifax, if Canada consents.

"These bases, it is pointed out, are of very little use to Britain anyway, and their existence comparatively short distance off shore from the United States, has always been a thorn in the side of intense nationalists here. There was nothing official to confirm this rumor, however, and there was a decided declaration in state department circles before Mr. MacDonald departed that nothing of that sort would be discussed."

No Invitation Received

Canada Not Formally Asked To Attend Naval Conference

Ottawa, Ont.—Canada has received no formal invitation to attend the five-power naval disarmament conference in London, next January, Premier King states. Preliminary correspondence on the subject showed that the dominion was welcome to participate directly in the party, but there had been no definite invitation. The premier said he would consider the question of Canada's representation when a definite invitation is received. Asked if he would go himself, he replied that he thought that would be unlikely. It was too near the opening of the Dominion Parliament, he pointed out.

Making Dash For Antarctic

Norwegians Hope To Beat Australian Expedition To South

New York.—The New York Times publishes the following special cable from Capetown, South Africa: "Two Norwegian vessels are making a dash for the Antarctic with the object of raising the Norwegian flag along unknown stretches of the coast in advance of Sir Douglas Mawson's Australian Antarctic expedition. By claiming Antarctic territory the Norwegians hope to avoid paying royalties to Britain or Australia on the enormous number of whales caught annually in these waters.

Lake Water Levels High

Ottawa.—Water levels of Lake Ontario from June to September inclusive were the highest for the period since 1908, reports of the Canadian hydrographic service show. For Montreal harbor they were the highest since 1917; for Lake Erie since 1887, and for Lake Huron since 1888. Lake Superior was 1/2 inch lower than in 1928, when it was at its highest peak since 1916.

W. N. U. 1807

Defends Bishop Lloyd

Saskatchewan Premier Commends Work Of Anglican Clergy

Saskatoon.—A defence of the immigration work of Bishop G. E. Lloyd, plans for more educational facilities in the province, the establishing of an office in England to encourage a greater influx of British immigrants, and an attack on Peter Veregin, Doukhobor leader, featured an address by Premier J. T. M. Anderson to visiting clergy, graduates and students of Emmanuel College here. The occasion was part of the third day's program of the Anglican College's jubilee.

During his luncheon address Dr. Anderson lauded the important and valuable work of the clergy in the progress and welfare of the province, especially during the pioneering days of the West.

The Premier was introduced by Bishop Lloyd who welcomed him as a churchman, Premier and "straight man." He spoke principally on the educational problems confronting the government of the province at the present time and pointed to the great work yet to be done in Ile a La Crosse and Cumberland areas particularly. He said it was possible schools would be established there in the near future.

Grain Board Assistants

Appointments Announced Of Three Representatives For Manitoba, Saskatchewan and Alberta

Ottawa.—The three assistant grain commissioners appointed under the amended provisions of the Canadian Grain Act were announced this afternoon by Hon. James Macdonald, Minister of Trade and Commerce, as follows:

Manitoba—Professor T. J. Harrison, Manitoba Agricultural College.

Saskatchewan—Hon. R. S. Duides, of Pelly, Sask. and the University of Alberta—W. H. Blatchford, Calgary. The above appointments were made by the cabinet on the recommendation of the Board of Grain Commissioners.

The appointments are in pursuance of amendments made to the Canada Grain Act at the last session of Parliament following an extensive investigation by the standing committee on agriculture and colonization.

The commissioners of the board appointed some time ago consist of E. B. Ramsey (chief commissioner), Hon. C. M. Hamilton and Dr. D. A. MacGibbon.

Service Will Start

On December First

Prairies To Have Air Mail Within Six Weeks

Ottawa.—The extension of the air mail service on the prairie beginning December 1 is a step toward a national service. Mail trains will carry the heavy mail while five class mail will be carried by planes.

Beacons will be installed at Regina, Saskatoon, Edmonton, Calgary and Banff next month. When service is in full operation eighteen hours will be cut in time from Vancouver to Montreal, and twenty-four hours from Montreal to Vancouver. The disparity in time of the eastern and western service will be due to train connection required in the picking up of the mail. Air mail service down the McKenzie River will start about October 27, and will be twice a week from Edmonton as far north as Alkavik.

With the close of navigation on the St. Lawrence, the winter air service on the north shore of the St. Lawrence will begin. Another service to start with the close of navigation is from Leamington to Pile Island.

Afghan Minister Expelled

London, England.—Shuja El Dowler, Afghan minister at London, who remained at the legation here after the downfall of his king, Amanullah, has been expelled from Great Britain. Some morning papers said the expulsion took place several weeks ago and said it was for "impersonal reasons."

Pensions Too Late

London, Ont.—Six aged London men and women whose applications for old age pensions had been approved and who were scheduled to receive payments beginning November 1, have died since their claims were passed upon.

Wedding Is Postponed

Denver, Colo.—The Denver Post says that the wedding of Henry Bradley Martin, Jr., and Valerie French, granddaughter of the late Field Marshal French, of England, has been postponed for one year.

Large Increase In

Federal Income Tax

Yukon Only District Not Ahead Of Last Year

Montreal.—Collections of the Federal Income Tax for the six months ended September 30 last, totalled \$43,020,430, an increase of about 20 per cent over the same period last year when collections were \$35,972,358, says a special despatch from Ottawa, published in the Montreal Gazette. Figures were made public by Hon. W. D. Euler, Minister of National Revenue. All collections districts in the Dominion with the exception of Yukon showed an increase.

Canadian Drowned In South

Vancouver Men Lose Lives At Long Beach, California

Long Beach, Calif.—Two men, visitors here from Vancouver, B.C., were drowned in a rough sea running off the beach. They were Chester Palmer, railroad engineer, and A. McPhee, a Canadian Government locomotive inspector.

Identification was made by Joseph McCramer, Los Angeles, who accompanied them to the beach. Palmer and McPhee were swept beyond their depth by an exceptionally large wave. Their bodies were recovered within a few minutes, but efforts to revive them failed.

LITTLE DEMAND FOR WHEAT FOR SOME TIME YET

Winnipeg.—At least six weeks must elapse before there is increased demand from European buyers for North American wheat according to a report issued by E. A. Ursell, statistician to the Board of Grain Commissioners, Fort William.

An optimistic note concerning the present grain storage situation at head of the lake ports, however, is contained in Mr. Ursell's statement, received here from Fort William. He points to the increasing movement down the lakes, and forecasts that shipments from prairie points can be handled at lake head ports without more serious congestion, provided the present movement is continued. He also points to the additional storage capacity provided at Georgian Bay ports this fall.

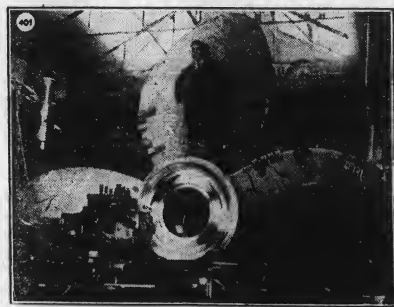

Toronto.—No immediate solution was seen of the present grain congestion situation by Sir Henry Thornton, president and chairman of the Canadian National Railways, he said, in an interview here.

"I know that it will cause a very substantial reduction in our net earnings, and this is upsetting after our starting off with such bright hopes of a banner year," Sir Henry said.

"There must be a compromise of some kind soon," he said, "one side is bound to crack."

"I hope the farmers get plenty for their wheat," he said, "but I hope something happens soon to relieve this situation."

World's Largest Bronze Propeller

All in one piece—four blades, and boss—the propeller shown above in the process of manufacture is the world's largest bronze propeller. It has just been made in the Charlton Works of J. Stone & Co., Ltd., for the new Canadian Pacific liner "Empress of Japan," which will take up service between Canada and the Orient next July.

More than 35 tons of special bronze was used in "casting this wheel," which is over 20 ft. in diameter. There are two of these on the new 25,000-ton vessel. They will absorb 15,000 shaft horse power each and will drive the liner at a speed of 21 knots.

MAY BECOME QUEBEC CHIEF JUSTICE

Hon. Lucien Cannon, solicitor-general in the King ministry, who, according to rumors circulated in Liberal circles, is in line for chief justiceship of the province of Quebec.

Plane Was Wrecked

In Forced Landing

Missionary and Family With Pilot

Narrowly Escape Death—Prince Albert.—Missing for three days in the north country, the aeroplane carrying Pilot Alva Malone, a missionary, and his family, was discovered a mass of wreckage near Lac la Ronge, Sask. It was disclosed that the machine was damaged before repair, when a forced landing was followed by a crash and the passengers narrowly missed death.

Pilot Malone reached Lac la Ronge after walking from the scene of the mishap. The missionary, Rev. W. N. Fisher, en route with his wife and two children to take over the Anglican mission at Lac la Ronge, decided to continue their journey by canoe.

Making Tour Through West

Premier King Plans To Speak Twice In Each Province

Ottawa, Ont.—Premier King visits Western Canada this autumn. He will traverse both the northern and southern routes across the prairies and British Columbia, going westward to Prince Rupert, down to Vancouver and Victoria, and returning through the southern routes. He expects to make two speeches in each province.

Mr. King will be accompanied on the tour by Senator Andrew Haydon, Colonel The Hon. J. A. Ralston, Minister of National Defence, who will be in the west at the same time, will join the Premier Minister at several points where public appearances are to be made.

B.C. Pioneer Dead

New Westminster, B.C.—Charles George Major, 89, resident of British Columbia for 70 years, and a pioneer link with the Cariboo gold rush days, died at his home here. Mr. Major drove the first stage coach over the Cariboo highway during the hectic days of the gold rush. Later he became official administrator for the county of New Westminster.

Sea Monster Reappears

Has Been Seen Again In Cowichan Lake, B.C.

Cowichan Lake, B.C.—Appearance of a "great headless monster" in the placid waters of Cowichan Lake recently has been reported here and the story is received with mingled terror and curiosity. Several search parties have been sent out to verify the original chronicle brought in by James Thomas, of Riverside, who claims that he saw the creature while cruising in his powerboat.

Several months ago a visiting doctor reported having seen a sea serpent in Cowichan Lake and was jeered. The creature reported by the doctor has evidently reappeared.

MACDONALD VISIT WILL RESULT IN LASTING BENEFIT

Washington.—"We do hope and believe that the steps we have taken will be warmly welcomed by the people whom we represent, as a substantial contribution to the efforts universally made by all nations to maintain peace and prevent war by military organization—but by peaceful means, forced by the people and enforced by a sense of justice in the civilized world."

These are the concluding words of a joint statement issued by the prime minister of Great Britain and the president of the United States.

The statement declared the governments of Great Britain and the United States accepted the peace pact of Paris as not only a declaration of good intentions, but a positive obligation to direct national policy in accordance with the pledge to renounce war as an instrument of national policy. As a result of this attitude, historic problems might be approached from a new angle, for military forces could not take place.

The prime minister and president therefore agreed those questions should become the subject of active consideration, and conversations between the two governments and between the two nations as was pursued in the naval disarmament discussion of this summer.

The statement asserted the naval conversations had brought the governments so close together that obstacles in previous conferences arising out of Anglo-American disagreements, now seem substantially removed. But agreement could not be completed without the co-operation of the other naval powers. Both the prime minister and the president felt confident such mutual understandings would be reported as would make an agreement next January possible.

"In view of the security offered by the peace pact, we have been able to end, we trust forever, all competitive building between ourselves, with the risk of war and waste of public money involved, by agreeing to parity of fleets, category by category," the statement said.

Conversations of the most private and free nature between J. Ramsay MacDonald and Herbert Hoover, extending over a period of five days, ended with the issuance of the statement, and after having inaugurated what may become the custom of word of mouth communication between the heads of the British and American peoples.

Incidentally Mr. MacDonald has gained for himself a great personal triumph in Washington and throughout the United States, to which triumph his daughter, Isabel, has contributed not a little.

The profound, the immense, value, which no observer here doubts attaches to the unprecedented conference of the prime minister with the president, is suggested in the first sentence of the joint statement: "We hope and believe that the steps we have taken will be warmly welcomed by the people whom we represent," and the more tangible substance of that value seems to lie in the announcement that in the new atmosphere created by the peace pact, discussions of historic problems between the two nations will be begun.

Throughout the visit of the prime minister to Washington he has continually laid emphasis upon the Paris pact, referring to it in his senate address as a "monument in history."

It is now proposed in the circumstances of war being declared "unthinkable" and the assumption that war is banished, to go forward toward the solution of problems involving important technical matters requiring detailed study, thus making the pact not only a promise, but at the same time a background and motive force in international politics.

PRESENT SCHEME FOR ORGANIZING C.N.R. FINANCES

Toronto.—At the next session of parliament, Sir Henry Thornton hopes to present a scheme for organizing the financial structure of the Canadian National Railways, he told the Empire Club here.

It was a stupendous task, he said, to catalogue and appraise the securities of the 92 different companies which went to make up the system, but this had been done and the next step was to ask parliament to approve a scheme which would secure the financial permanence of the property and at the same time enable us to capitalize the financial improvement made in the last few years.

"If the property is to improve in the future as it has in the past," Sir Henry said, "our financial structure must be one which will enable the government to write down the nation's debt and take advantage of what were formerly liabilities but have now become assets."

A certain financial paper, Sir Henry said, had described the Canadian National as a dictatorship and himself as a dictator. "It is nothing of the sort," he declared. "The Canadian National Railways represents as fine an expression of co-operative effort as can be found in the industrial world. It would be stupid to say the success of the road has been due to the work of any group or of any individual." The great opportunity is given all our executives to assist in formulating policies and directing operations."

Doukhobors Flocking To New Settlement

Radicals Joining Sons Of Freedom At Porto Rico, B.C.

Victoria.—Information reaching Victoria is to the effect that radical Doukhobors are drifting into British Columbia from Saskatchewan and the United States, and have swelled the Sons of Freedom at Porto Rico, some 18 miles from Nelson, from 150 to 400 persons. Premier S. F. Tolmie said he was seeking the co-operation of the Federal Government in restraining this movement.

At the same time, Premier Tolmie received a telegram from Independent Doukhobors of Thrumbs and Coaster, who declared that their brethren at Porto Rico were exiled, short of food and facing "serious privation. To them the premier replied that the Sons of Freedom at Porto Rico were in no sense exiled, that they would return to their former homes or work as long as they obeyed the laws of the country.

"They are not under any restrictions which do not apply to all citizens of the province," he said. "If unusual cases of privation exist we are prepared to relieve them, but we do not propose to countenance any violation of the laws of this country," the premier stated.

Pontoon Bridge Explodes

Three Killed When Faint On German Structures Ignites

Bremen, Germany.—Three persons were killed and many injured and glass in windows in the vicinity broken when the Kaiser Bridge pontoon exploded. It was thrown several hundred feet into the air, falling on the stern of the motor yacht City of Bremen and crushing it.

The inner compartments of the pontoon had been newly painted with a paint producing an explosive gas while drying. It was reported that a man who was among the killed, lit a cigar accidentally igniting the gas.

A fourth body, that of a 14-year-old boy, was later found in the Weser River.

Will Make Four Speeches

Washington.—Four speeches will be delivered by Prime Minister Ramsay MacDonald during the course of his Canadian trip. The premier is planning to speak in the cities of Toronto, Ottawa, Montreal and Quebec. From Quebec, he sails for England on October 25.

E.S. Accepts Invitation

Washington.—Coinciding with the departure of Premier Ramsay MacDonald from the capital, the United States Government formally accepted the invitation of Great Britain to take part in a five-power naval limitations conference.

There are more than 700,000 privately owned cars on British roads.

NOTES AND COMMENTS

Mayor Burns will shortly vacate the executive chair, after eighteen years as conciliator and mayor. His record of municipal service is far above the average. Himself a salaried man, he has not spared of his time and energy in the service of his fellow citizens. It is hoped that whoever succeeds him will have as much enthusiasm for the job as he has shown. We all admire a man who has "pep" and aspirations and is willing to put up a fight for the people's interests. There is only one avenue to travel, and that is the upward path. The individual who allows himself to sink into the mood of self-contentment will eventually find himself at the tail-end of the procession. You have got to keep up the fight for self-improvement, as individuals and collectively as a town. It is better to die with your boots on than to die of rust and senile decay.

Recently a head of a chain store organization addressing executives of other chains, made some frank admissions. His address was reported in a daily newspaper of unquestioned veracity, the Christian Science Monitor. He stated that the bargains offered were priced low to induce people to buy, and that the loss suffered on these was made up on other goods; that it was unethical practice, and that the selling of these low priced lines tended to force the independent dealer out of business.

Quality must be paid for. Tea, coffee, suits of clothes and other things can be made to sell at a price. Very often the few cents apparently saved is a delusion, and the net value to the purchaser would have been greater by paying a higher price for something of established quality. No cut price concern can remain in business. Many have been wrecked by trying to beat the other fellow. Deal with a store that has a reputation for consistent good quality and fair prices and you'll get your money's worth. The cut-pricer is not giving away anything.

People to-day enjoy avenues of education which were not available twenty or thirty years ago. They may listen in on the radio to men of world-wide prominence, such as Premier MacDonald in his address last Friday night before a New York audience. They may go to the picture shows and see reels of current events which possess an educational value, or they may travel from rural districts into the cities and enjoy a change of atmosphere and a quickening of the pulse, all of which tends to broaden the individual's general knowledge. He who bemoans the passing of the good old days must already have cue foot in the grave. One year of life nowadays is equal to twenty of the period of the so called good old days.

The article on page 2 entitled "What is Education?" is commended to the attention of readers. It is enlightening to young and old.

Playground equipment for school grounds has been advocated. It is a necessary part of school equipment, and the wonder is that it has not been installed before. Many schools include a specified time each week for physical training, for which a male teacher having the necessary qualification is engaged. If a board cannot see its way to engaging a teacher of this type, they can at least provide a few appliances such as horizontal bars and swings. The children occasionally ask some pointed questions why other schools in the Pass towns have these things. Provide a healthy outlet for the energies of the young folks, and you help a great deal in keeping them out of mischief. One of the qualifications for a Rhodes scholarship is that the candidate has a good record in athletic games.

Loyalty makes good friendships. Some try to be good friends with everybody, and wonder why they do not succeed. If you really have a pal and a friend, you'll stick up for him through thick and thin.

A very wasteful method of spreading gravel on town streets is employed. Coarse gravel is dumped. Then along comes a man picking up the rocks, later comes a dray to cart them away. Why not save the labor in hauling useless material and then gathering it up and carting it away again by seeing that only fine gravel is hauled. The process now employed is similar to pouring water into a pail with a hole in it.

British Columbia's minister of education states that no more American printed text books will be used in the schools. Even if Canadian printed text books cost 25c additional he states that the money will be kept in the country and the children will be instructed from books printed in Canada.

Atwater Kent Screen-Grid Radio

ALWAYS FIRST with proved improvements, Atwater Kent now introduces Screen Grid Radio. It means the clearest flow of pure tone quality that you ever heard from a radio set. It means new power to reach far away stations—new sensitivity—new needle-point selectivity to separate the stations as d pick out the one you want. New velvety depths and new heights of tonal perfection.

Through the magic of this Atwater Kent Screen Grid Radio, the voice of radio in all its beauty comes to you clearer, finer, farther than ever before—with mighty volume, if you like, or with the intimacy of a softly played guitar.

A Radio truly worthy of the finest home

BURNETT'S
is just that much BETTER

SIR ROBERT BURNETT'S
OLD TOM GIN LONDON DRY GIN
This advertisement is not inserted by the Alberta Liquor Control Board or by the Government of the Province of Alberta.
ESTABLISHED 1770

Will Live in British Columbia

Mr. and Mrs. Tom Johnson left on Monday morning for Arrow Park, B. C., to reside, after living in Coleman for eight years. They came from England, and for some years their sons lived here. The east winds in winter have been very trying to Mr. Johnson, who has suffered from asthma, and he believes a change to a lower altitude will bring benefit. On Friday evening the Elks Lodge held a smoker in his honor, and presented him with a case of pipes. Mr. Johnson has also given good service as chairman of the school board, while Mrs. Johnson took an active part in the work of St. Alban's W. A. A number of friends gathered at the depot on Monday to bid them farewell.

Uncle Zeke Says

There's going to be a new set of P. O. rules in this man's town. Here's some of the new regulations: If you don't get your letter the day you expect it, have the postmaster look through all the boxes, and in the cellar also; it ought to be there somewhere, and he likes to look for it just to please you. If your friends don't write, curse the postmaster—he is to blame. If he tells you there is no mail, put on a grieved expression and say there ought to be some; he is probably hiding your mail for the pleasure of having you call for it six or seven times a day, and after every freight or hand car. Ask him to look again. Read the advertisements. It pays.

Why Scrawl Letters

There is very little excuse for a business man or any other person who carries on correspondence to send out letters that are difficult to read. It denotes lack of progress in this age when typewriters are so easily obtained and operated. Call at The Journal office and we will tell you about the plan whereby you may purchase a portable machine useful for office or home.

Miss Agnes Kellock left recently to commence duties as a nurse-in-training at Calgary general hospital. Formerly a pupil of Coleman high school, she later attended Mount Royal College, Calgary. General good wishes for her success are expressed by her friends in Coleman.

Here and There

Differences in the price of wheat at Chicago and Winnipeg will be regarding the wheat movement in western Canada is due to the view of Canadian wheat owners that its good quality justifies holding it for higher prices while British and continental buyers believe they can obtain their present requirements from the Argentine and the United States. The explanation of this condition given out in a statement recently issued over the signature of E. W. Beatty, chairman and president of the Canadian Pacific Railway and Sir Henry Thornton, president of the Canadian National Railway, until the present impasse between buyer and seller is adjusted there will be a practical stoppage in the movement of grain with consequent serious effects on gross and net earnings of both the rail and water carriers.

Travelling 300 miles north of Edmonton over the waterways branch of the Northern Alberta Railway to Waterways and Fort McMurray, E. W. Beatty, chairman and president of the Canadian Pacific Railway, accompanied by a number of directors of the railway, inspected the salt wells and tar sand deposits of the region. Experts of the Canadian Pacific and Canadian National Railways are at present examining these deposits which Mr. Beatty said he was satisfied would be a great asset to Alberta.

Delegates from the Canadian Chambers of Commerce who have been travelling extensively in the west of Canada, mainly over Canadian Pacific lines, have through their national committee reiterated their stand in favor of a continuance of assisted immigration of selected British settlers of a desirable type to Canada.

Charles Reid, of the Banff Springs Golf Club, won the Prince of Wales golf trophy, famous and coveted prize of golf, from a field of 427 competitors recently. His score was 144 net, his handicap being 17. This is the first time in the history of the competition that the cup has gone to a Banff player, Calgary golfers having taken it to that city on each of the four former competitions.

Canada's reindeer industry takes a big forward step this year with the trek of 8,000 northern animals from Alaska into the Dominion. In November this herd, secured by Canada from the United States herds in Alaska, will begin a trek which will take 18 months and will land the animals in 1931 on the Arctic coast east of the Mackenzie river.

Australians are "fiercely loyal" so far as Empire Trade is concerned, and buy, for example, 98 per cent of their automobiles from Canadian manufacturers. Sir James Murdoch, member of the Legislative Assembly of New South Wales, told the Vancouver Canadian Club recently, Sir James had just returned from a cross-Canada tour by Canadian Pacific lines and was on his way back to Australia.

Settlers in the Peace River country have a definite uniformity of outlook regarding the progress of the country as a whole, and Col. J. S. Dennis, Chief Commissioner of Colonization and Immigration of the Canadian Pacific Railway, who has been inspecting the northern part of Alberta over the Northern Alberta Railway. He was impressed at the readiness of the Boards of Trade and individual business men to take a large view even where it might work temporary hardship locally.

Premier Ramsey MacDonald of Great Britain was heard very distinctly over the radio last Friday evening, in his address before an audience in New York.

Jack and Jill

Cushion Sole Shoes for Children

Jack and Jill Shoes are Endorsed by Physicians Everywhere
Bring in the Children and have them properly fitted by

Antrobus' Shoe Store

CERTIFIED AGENTS FOR JACK AND JILL SHOES

BY THIS Jack and Jill method of "Visible Fitting" there is no more guesswork; the child's foot can actually be seen in the shoe, and cramping of the little toes, that grow so quickly, avoided. Children thus fitted will not need arch supports and other appliances in later years. For never does a "Jack and Jill" Shoe bind growing bones or muscles. Firmly constructed yet flexible as a glove, they allow the feet to grow unhindered. Sturdy and strong to stand the wear and tear of active youngsters, yet priced very moderately.

Hospital Notes

Harry Proodlock has been in hospital since January, following an accident which necessitated amputation of a leg. Despite such a long period of confinement, with his thirty years of life behind him, he is cheerful and makes no grouches of his misfortune. Characteristic of his fighting spirit as an old athlete, and a hockey and lacrosse player, he has the head of his cot adorned with a Canadian flag and has the same cheerful attitude towards life as when he was a young man of twenty.

Onnie Hill is another patient in hospital who has borne a long period of confinement with a cheerful smile. He is still in his teens, but illness has deprived him from enjoying the usual round of games and sports so dear to a boy's heart. An occasional visit to the hospital cannot fail to compel a feeling of admiration for those whom sickness robs of many of the pleasures of life which others enjoy.

Keeping everlastingly at it is the only way you achieve results worthwhile.

Public
Danger

Caught Disease On the HANDS!

Stin disease threatens us every day. Invisible germs of blood-poison, eczema, etc., are waiting to infect the least cut or sore place. The money you use carries germs—you get them on the handles, rails and straps of the trains and street cars, and in a score of other ways.

Solely through Zam-buk, Mr. Henry C. Davis, of South 17th Street, Kansas City, U.S.A., has just escaped a violent type of eczema, contracted, he suspects, through use of public towels.

"I had medical advice," he says, "tried in addition all sorts of so-called eczema remedies, without finding the hoped-for relief. Zam-buk treatment soon gave positive results. It took away the painful itching and quickly purified and healed the deep troublesome sores."

WORLD HAPPENINGS BRIEFLY TOLD

The National Research Council has been asked to appoint an associate committee on weed control research.

The Earl of Harewood, father-in-law of Princess Mary, died at his ancestral estate, October 6. He was 83 years old.

Admiral Sir Richard Phillimore, first and principal naval aide de camp to His Majesty, has been placed on the retired list. Vice-Admiral Sir H. W. Richmond is promoted admiral.

Lady Schultz, wife of the late Sir John Christopher Schultz, former Lieutenant-Governor of Manitoba, and Senator, died October 7, at Winnipeg.

R. B. Morley, general manager of the Industrial Accident Prevention Association, Toronto, was elected Canadian representative on the executive committee of the National Safety Council at Chicago.

Canada and the other British Dominions will be represented at the proposed five-power naval disarmament conference in London, England, next January, according to present plans.

A crowd of several thousand persons, at Ottawa, saw Baker Diehl, 22-year-old parachute jumper, plunge 2,800 feet and fall within 100 feet of when his parachute failed to open.

Sir Jagdish Bose, world famous Indian scientist believes he has discovered a drug extracted from a plant found in the Himalaya Mountains, which would relieve permanently victims of heart failure.

Stepping out of a plane after a short flight at Red Wing, Minn., Mrs. Ray Ahrens, 30, of St. Paul, walked into the whirling propeller of another ship and was killed. The pilot of the plane, Max Conrad, 27, was seriously injured trying to save Mrs. Ahrens.

Test Was Successful

Value Of Instruments To Overcome Perils Of Flying Through Fog Is Proved

Completion of the first airplane flight with a cockpit entirely shielded from light was announced by Harry F. Guggenheim, president of the Daniel F. Guggenheim Foundation for the promotion of Aeronautics, as the final successful test of a group of instruments designed to overcome the perils of flying through fog.

Lieut. James H. Doolittle, seated in the darkened cockpit, took off from Mitchell Field, and flew along the path of a directing radio beacon to a safe landing.

Her Father — You have been a very naughty girl and I'm going to spank you.
Little Elsie—Would you strike a lady?

Surplus oil, for which there is insufficient storage, can be pumped back into the earth to remain there for future use.

Fall Colds

Beware the cold that starts in the fall and hangs on all winter. Use Minard's internally and externally to drive it away.

X-Ray In New Role

Is Aid To Manufacturing and Notably In Aviation

The X-ray, an instrument of physicians and surgeons, has become a tool of the foundry room, and its benefits to the metal industry have been of considerable aid to manufacturing, notably in aviation, according to the statements of W. L. Fink, metallurgist, before the National Metals Congress at Cleveland.

The shadowgraphs of the X-ray show shrinkage, blow holes, pin holes porosity and other imperfections in castings which never would be discovered by other means of examination, he asserted. As a consequence, the metal frames of airplanes can be thoroughly tested before construction of the plane is completed, a safety device that would be available in no other way.

By the same means castings generally have been improved, Fink declared.

Men Can Be Placed

Demand For English Youths Trained For Canadian Farm Work

Immigration officials, at Ottawa, are confident places will be found for all the 3,000 young men to be trained in England this winter for work on Canadian farms. Placements will be made next spring by the Dominion and provincial authorities in accordance with demand in various parts of the country. Already this year, it was explained, 3,500 trained men from overseas have taken up work on farms here. Last year the number was about 1,400.

You Must Have Sugar

Sugar is one of the much needed elements in a balanced diet.

WRIGLEY'S supplies sugar in a convenient way. The flavor is an extra delight.

Then too—you know you aren't adding weight. Sugar is a fuel that burns up needless fat.

Canada's Road Mileage

Highway Construction and Good Roads Program Receiving Much Attention

Partly to accommodate the rapidly increasing tide of tourist traffic, much of which travels by automobile, the construction of highways and good roads throughout Canada continues to advance. In the past three years the mileage of surfaced roads in the Dominion has been increased from 47,411 miles to 64,121 miles. Including improved and unimproved earth roads, the total mileage of highways open for traffic in all parts of Canada, was at the end of last year, 381,977, or a mileage that would girdle the earth over 10 times.

Last year, 8,610 miles of highways were constructed of which 2,454 miles were earth, and 6,156 surfaced. The total expenditure on construction was \$38,912,029, while a further sum of \$18,963,381 was spent on maintenance. The year's work included 541 miles of permanent surfaced highways in bituminous macadam, bituminous concrete and cement concrete construction. Water-bound macadam totalled 417 miles and gravelled highways 5,198 miles.

There were 1,076,819 motor vehicles registered in Canada in 1927, which was an increase of 131,147 over the previous year. Passenger automobiles registered amounted to 921,395, an increase of 100,028 over 1927. On a per capita basis, there was one passenger automobile per 10.6 persons in Canada, and one motor vehicle including trucks, motor cycles, buses, etc., per 9.0 persons. Only three countries had greater densities than Canada, the United States, with 5.1, Hawaiian Islands 7.9, and New Zealand, 8.0 persons per motor vehicle.

Beacon For Night Flying Is Tested

Will Flash Automatically For Six Months Without Attention Is Claim

A wind-driven air mill beacon, designed to flash automatically every night for six months without attention, has received its first test at Washington.

The beacon has been packed on an 80-foot tower a few miles below Washington on the New York-Atlantic air mail line. The beacon consists of three lenses and three lamps, a flashing mechanism, a storage battery, a generator and a windmill.

When charged the battery will run the beacon for two weeks without a breath of air blowing to turn the windmill and run the generator. The experimental beacon was set up there because it is a light-wind region. If it operates successfully for several months, it will operate anywhere.

Unique Clock Is Success

Having run without being wound for a year, the weather clock at Zurich, Switzerland, has been declared a success. In the 12 months it has kept perfect time. It has no apparent source of power, but is run by the variation of temperature, a two-degree change setting the thermometer-like mechanism in motion to wind it without human assistance.

The tulip tree of the Great Smoky Mountains has no relative in America, and only one elsewhere in the world—in far-away western China.

Preparing For Next Dominion Census

Questions Being Considered and Plans Are Under Way

The questions which will be asked the people of Canada at the next general census are now under consideration by the Dominion Bureau of Statistics. The present plan is to take the census beginning on June 1, 1931, and all the questionnaires to be used must be adopted by the government-in-council. In view of the immense amount of printing and organization required, the initial plans are well under way.

The question of whether people should be classified Canadians or according to the nations from which their ancestors came, will not likely prove so troublesome in the case of the census as it frequently has with other Dominion and provincial government surveys. The name of every man, woman, boy and girl in Canada will be taken down. They will likely be listed as Canadians, British subjects, or as not Canadian, Canadians, and allies. Canadians will include all those born in Canada, all other British subjects who have lived in Canada long enough to acquire a domicile here, all persons naturalized and their children.

In addition to the census of the humans, the census of the horses and the cows and the sheep and the hen will be taken in an agricultural questionnaire.

New Cure For Paralysis

English Doctor Says Induced Malaria Has Been Tried Successfully

Induced malaria as a successful treatment of paralysis, is revealed in a recent report of Surgeon Rear Admiral E. T. Meagher, covering experiments on a number of cases in English and Welsh hospitals.

"The treatment of general paralysis," his report states, "by induced malaria, offers more promise of success than any other form of treatment that has been given extended trial."

The treatment, which includes either artificial malaria inoculation or exposure to malarially infected mosquitoes, has been found, says Dr. Meagher, to increase the length of life, to render existence more natural, and to produce improvement in the physical condition and the mental state.

"The response in individual cases," he states, "varies from a negative result to apparent complete recovery."

Cuts Running Time

Canadian National Cuts Two Hours Off Montreal To Winnipeg Run

Reduction of two hours in the running time of the "Continental Limited" all steel train of the Canadian National Railways, between Montreal and Winnipeg, became effective on September 24th. Under the new schedule "The Continental Limited" leaves Montreal at 11:15 p.m. daily instead of 10:15 p.m. as formerly and arrives in Winnipeg at 7:15 on the second evening instead of 8:15 p.m. as formerly.

"The Confederation" the all steel train operating between Toronto and Vancouver, B.C., is being continued in service until mid-November, after that date it will operate between Toronto and Edmonton, thus giving faster winter service from Toronto to Edmonton and also to the cities of Regina and Saskatoon and intermediate points.

Recipes For This Week

(By Betty Barclay)

ORANGE SWEET PICKLE

4 oranges.

2 cups sugar.

1½ cups vinegar.

1 teaspoon whole cloves.

1 teaspoon stick cinnamon.

Peel oranges, removing all white membrane; cut into thick slices; steam until clear and tender. Boil sugar, vinegar and spices for 25 minutes. Add fruit and simmer slowly for one hour. Place in sterilized jars and seal.

QUINCE AND APPLE MARMALADE

Wash quinces and remove blossom end. Cut fruit in small pieces, add sufficient water to cover, and cook until soft. Rub through sieve and combine the pulp with an equal amount of tart apple pulp. Use two parts sugar to three parts pulp. Cook almost half an hour, until it is thick and clear, then turn into clean, hot glasses. Cover with hot paraffin when marmalade is cold.

Never judge a man by his actions when he is away from home.

People who prize the finer things of life usually demand Red Rose Orange Pekoe Tea. A money-back guarantee with every package.

RED ROSE TEA "is good tea"

RED ROSE ORANGE PEKOE is extra good

In the best package—Clean, bright aluminum

SUNDAY SCHOOL LESSON

OCTOBER 20

USEFUL WORK A CHRISTIAN DUTY

Golden Text: "If any will not work, neither let him eat."—2 Thessalonians 3:10.

Lesson: Genesis 2:15; Exodus 20:9; Nehemiah 5:4; John 8:17; 9:4; Acts 20:33-35; 2 Thessalonians 3:6-12; Ephesians 4:28.

Devotional Reading: Psalm 81:9.

Explanations and Comments

God Ordained Work, Genesis 2:15.—In the story of the Garden of Eden, we are told that God placed man there to cultivate and care for it. The work was waiting for him.

"With the Christian conception of God, we cannot believe that work has been made a human necessity merely to supply the body with food and for all time. The word was not spoken, because character and intelligence were meant to be the fruits of labor, and material things by-products. This is shown by the moral and intellectual evils which follow and degenerate man who yield to absolute idleness. Civilization is at its highest in those lands where the climate is so productive to labor. Where work is declined, evil must be accepted."—Thomas Tipple.

Man Must Work, Exodus 20:9.—We think of the Fourth Commandment as directing the keeping of the Sabbath, and often forget that it first of all directs us to labor on the six other days. It enforces the claim that we must work as well as the seventh day's rest.

"No man is born into the world whose work is not to be done with him. There is always work.

And tools to work withal, for those who will. And blessed are the horny hands of toil."

The Prior Importance of Work, Nehemiah 5:4.—Four times Nehemiah's enemies, Sanballat and Geshem, sent an urgent request to him to meet them for a conference on the Plains of Ono. That they wished to do him harm was plain. Of course Nehemiah could not be so easily duped, but what a great answer was his: "I am doing a great work, so that I cannot come down: why should the work cease (as it undoubtedly would without his direction, impelling power), while I leave it and come down to you?" His answer would have been the same had the invitation been for pleasure or his own advantage in any way. He stood in the path of duty, and therefore in the very line of God's will, and he would not budge an inch. The greatness, the overwhelming importance of his work of rebuilding the walls of Jerusalem, the priority of its demands to all things else, filled his mind and heart.

Woman Salvages Ships

Mrs. Cox, of Glasgow, Scotland, is believed to be the only woman salvager in the German fleet. She helped raise the German fleet sunk at Scapa Flow, in 1919, in the five years she has added in raising 26 destroyers and two battle cruisers.

Praise For British Diplomacy

Proposals To Egypt Marveled Of Tact, Says American Paper

The Chicago Tribune says: "The British proposals to Egypt reveal British diplomacy and Imperial statesmanship at their best, and that is the best in the world. Americans must read them with admiration mingled with envy, for when will the United States be so important, and offer delicate relations have the benefit of so much tact, skill, and sane judgment as Mr. Henderson's proposals display?"

Doctor (to patient's landlady):

"Just keep him in bed, and above all, see that he does not eat too much."

Seaside Landlady (grimly): "Certainly I will; I have two or three other boarders who really ought to be in bed, too."

Teacher: "What is the little boy called who has never known a mother?"

Small Boy: "An incubator kid, ma'am."

The Most Beautiful BLACK you have ever seen

"THE most beautiful black you've ever seen!" "All my friends admire my new black silk!" "The color I thought was hopelessly spoiled is now a new, beautiful black!" These are typical comments from women who have used these true, jet black dyes.

Diamond Dyes Black never gives cloth a greenish or bronzy look, as so many black dyes do. Like Diamond Dyes Red and all the other Diamond colors, it is easy to use and gives such beautiful results. Because it is rich in pure anilines, it's the anilines in dye give them brilliant depth and fastness; make them go on smoothly and evenly, without streaking or spotting. And Diamond Dyes contain the highest quality anilines that money can buy. The entire package of Diamond Dyes is the highest quality dye, prepared for general use. It will dye or mix silk, wool, cotton, linen, rayon, or any mixture of materials. The blue package is a special dye, for silk and wool only. With it you can dye your valuable articles of silk or wool with results equal to the finest professional work. When you buy—remember this! The blue package dyes silk or wool only. The white package will dye every color, give them brilliant depth and fastness; make them go on smoothly and evenly, without streaking or spotting. And Diamond Dyes contain the highest quality anilines that money can buy. And it's the anilines that make them so beautiful. They are the life of the dye; the source of color, richness, color, brilliance and permanence.

Pleased With Canadian Hospitality

British Delegation To Institute Of Pacific Relations Show Appreciation

In a telegram from Victoria, B.C., where they took the boat for Japan, the British delegation to the institute of Pacific Relations wired Premier Mackenzie King an appreciation of Canadian hospitality. The delegation crossed Canada en route to Kyoto. The message, signed by Lord Hailsham, Lord Chancellor of England and head of the delegation to the institute of Pacific Relations, said: "I desire to express to you, and through you to the people of Canada, our most cordial thanks for the magnificent hospitality extended to us in our journey across the Dominion."

Premier King replied: "I thank you warmly for your kind message. I extend best of wishes to each member of the British and Canadian delegations."

An Easily Made Dessert

Caramel Pudding, one of the most delicious desserts one can serve, and one especially loved by children, can be made practically to make itself. Here it is:

Place an unopened can of Borden's Eagle Brand Condensed Milk in a kettle of boiling water and simmer for two and a half hours, being careful not to let the kettle boil dry. Remove can, cool and chill. Remove top of can, cutting along the side of can—not the top—so that the contents may be removed whole; place on a serving dish and garnish with broiled meat, and whip cream—or use plain unsweetened cream, with or without garnish.

The Singing Fool

By HUBERT DAIL
Copyright, 1928, Warner Bros. Pictures, Inc.

SYNOPSIS

Al Stone, singing waiter at Blackie Joe's New York night club, wins fame as a composer of popular songs. He marries Molly Winton, a ballad singer, and makes her famous. Too, Molly and Al have a baby, Junior, whom Al adores. Molly becomes interested in John Perry, Al's close friend, and one night she tells Al she has ceased to love him. Al refuses to believe it, but when Molly fails to show up for a New Year's Eve celebration at the Club Bombo, where Al is part owner, he rushes home to find she has packed up and left, taking Junior. She leaves a note suggesting that she loves John Perry and that Al need not try to persuade her to come back.

CHAPTER XVII

"This is Mr. Stone. Is the car in?"
"No, Mr. Stone," came the answer. "Mrs. Stone took it out."
"When?"
"Tonight, about an hour ago. She said she might not be back for several days."

"Was my baby with her?"
"Yes, sir, and a gentleman."
"I see. Thank you."
Al had struggled hard to keep his voice calm. He didn't want to ask too many questions; that would excite the suspicion of the garage people and Molly's flight might get into the newspapers.

He walked to the nursery window; down below he could see the crowd in black masses still moving slowly up and down the sidewalks, welcoming the glad new year. He shook his head—no, there wasn't a chance of finding Molly tonight. He couldn't call the police because there was no definite charge he could make against her. Besides, it wouldn't be the thing to do; it would mean publicity and ghastly scandal that would involve his baby. Al thought his rage had passed now and that he was thinking clearly. He went to the doorway and heard the maid putting down in her little back room.

"Celeste?"
"Yes, sir."
"If you haven't gone to bed will you step here a moment?"
"What time did Mrs. Stone leave?"

From Mother of Six

"I think Lydia E. Pinkham's Vegetable Compound is wonderful! I have had six children of which four are living and my youngest is a bonnie baby boy now eight months old who weighs 23 pounds. I have taken your medicine before each of them was born and have certainly received great benefit from it. I urge my friends to take it as I am sure they will receive the same help I did."
—Mrs. Milton McCallum, Vancouver, Ontario.

Lydia E. Pinkham's Vegetable Compound

W. N. U. 1807

"A little over an hour ago."
"Ah. She and Junior were alone?"
"Yes, sir."

"So John Perry had waited for her outside, thought Al.
"She didn't say how long she would be gone?"
"She just said she would be gone a long time and that everything was explained in the letter to you."

Al saw from the girl's expression that she had some idea of the purpose of Molly's hasty flight.
"Celeste, I want to ask you something. Please don't say anything to anyone about Mrs. Stone's departure."

"Yes, sir, I understand. I—I feel very sorry."

"Don't worry. And Celeste—I'll remain at the apartment for a time, at any rate. You needn't worry about your position."

"Yes, sir, thank you. Goodnight, sir."

When the maid disappeared Al entered Molly's room. He had believed himself calm when he talked to Celeste, but now he realized that he had been merely numbed by the sense of his tragedy. He was trying to plan, trying to read the future, while at the same time searing thoughts were burning him up. At one moment he raged inwardly against the heartless cruelty and contemptible deception of Molly and Perry, but the next instant he was on the verge of tears at the thought of losing Junior.

Where was he? Oh, yes, in Molly's room—the light aroma of her perfume filled the air. There was her sumptuous bed, with the high posts and costly coverlet of lace and down. Here was her dressing table, with its empty cosmetic jars and bottles strewn about. The drawers of the dresser were pulled out here, too, showing the same evidence of hurried packing as the nursery.

He quickly staggered out of the nursery and sought the nursery again. Without thinking, he picked up Junior's woolly dog, holding it in his hand as he paced up and down. What would Molly be likely to do in her flight; where would she be likely to go? There were hopeless questions Al knew it. She would very likely place herself in John Perry's hands and Al could not read that inscrutable mind.

Then he became aware that he was clutching at Junior's toy dog, like the proverbial drowning man grasping at the straw. It was his one link with his only-loved boy; wherever Junior was he would sooner or later be calling for his favorite toy. He might be crying for it at this moment.

The thought brought Al to a standstill; he sank into the nearest chair and looked around. If Molly's room spoke eloquently of her recent presence this nursery was fairly alive with the feeling of Junior. The fairy tale pictures on the wall and the tiny bright blue chairs brought up pictures, adorable memories of Al's little loved one, who had made these things ring with his chatter and laughter. Suddenly Al turned the face of the woolly dog toward him and its shoe-button eyes stared down at him as if eternally questioning—Where was his little master? Al slumped down in his chair, breaking under the strain, his shoulders twitching convulsively as he sobbed.

But this lasted only a moment; he quickly pulled himself together and stood up. He had told Celeste he would stay on in the apartment, but he could not bear to face this empty room day after day? Yes, he must, on the slim chance that something might lead to his finding Junior, something might bring Junior back. Now he did not think of Molly, but only of Junior. He got up and walked to the hall. "Celeste," he called, "I'm going out. Don't be worried if I don't come back tonight."

Al was walking along the street, where the crowds had

thinned out, for it was well on toward morning. Occasionally he met a band of drunken revellers, but he stalked by them with unseeing eyes, going nowhere in particular, but feeling the necessity for walking, walking.

All the time his mind worked furiously. Had Molly given up her stage job with The Merry-G-Rounders; had she quit the show flat? He must see Marcus in the morning and find out. Marcus might have some idea of her whereabouts.

Now Al saw the dark expanse of Central Park before him and, without thinking he turned in the first entrance he reached. There were the low, snow-covered hills, the bare trees whispering gently in the winter wind, the reflections of the skyscraper lights in the cold water. Here was the Japanese bridge where he had taken Junior walking only last Sunday. He stopped as if waiting for someone or something.

At that moment a dark limousine came speeding past him on the driveway. Was it Molly's car? He sprang forward.

Quickly as Al moved, the limousine was faster. It looked like a Rolls, but he couldn't be sure. And it was too dark for him to read the license plate. He stopped; there were ten thousand cars in New York that resembled Molly's. He went on, walking the streets until daylight. Then he headed for home, threw himself on his bed, fully clothed, and fell into a sleep that was tortured by nightmares.

He awoke with the sun streaming through his windows, tossed off his clothes, bathed, shaved and dressed hastily for the street. The first man to see was Marcus.

Marcus was in his office. He looked up in genuine surprise when Al walked in, pale and haggard.

"What's the matter, Al?"
"Nothing much. I'll Molly quit your show?"

"Yes, didn't you know?" A shadow crossed Marcus' face. "She quit last night, just like that." Marcus snapped his fingers. "With no explanation except that she was tired and needed a rest. The press department got busy on it. Didn't you see the morning paper?"
(To Be Continued.)

A Speedy Traveller

Rabbit Can Keep Ahead Of Ford Motor Car

The driver of a motor-car in Switzerland, tells the story of the astonishing speed and long-sustained effort which a rabbit is capable of. He happened to start one, which on its flight kept to the road. In order to keep up with the rabbit, the man had to speed up to about 34 miles an hour, and the sturdy little creature held on for over a league before it finally jumped into ditch by the roadside.

No one need endure the agony of corns with Holloway's Corn Remover at hand to remove them.

Pullman Porter (to lady from the country): I'll give you a paper bag for your hat, lady.
Country Lady: You whippersnapper! You won't get this hat for a paper bag.

It is only after a man is "collared" that he notices the "ties."

MOST people rely on Aspirin to make short work of their headaches, but did you know it's just as effective in the worse pains from neuralgia or neuritis? Rheumatic pains, too. Don't suffer when Aspirin can bring such complete comfort without delay, and without harm; it does not affect the heart. In every package of Aspirin you will find proven directions with which everyone should be familiar, for they can spare much needless suffering.

ASPIRIN
Aspirin is a Trademark Registered in Canada

"Safety First" Invention

New Appliance For Use At Level Crossings

An electrical appliance has recently been invented, and accepted by the Italian Ministry of Communications, which warns the public of the approach of trains at level crossings. The train itself works the machine by passing over a small lever attached to an electric wire, which automatically lights a big warning disc placed on a pole or the corner of a house near the crossing, and also sounds a powerful horn. Another sign shows whether the appliance is working properly or not. The inventor is an Augustinian friar.

DO NOT NEGLECT YOUR LITTLE ONES

At no time of life is delay or neglect more serious than at childhood. The little of life comes quickly and unless the mother is prompt in administering treatment, a precious little life may be snuffed out almost before the mother realizes the baby is ill. The prudent mother always keeps something in the medicine chest as a safeguard against the sudden illness of her little ones. Thousands of mothers have found, through experience, that there is no other medicine to equal Baby's Own Tablets and that is why they always keep a box of the Tablets on hand—why they always feel safe with the Tablets.

Baby's Own Tablets are a mild but thorough laxative which by regulating the bowels and stomach banish constipation and indigestion; break up colds and simple fevers and promote healthy, natural sleep. Concerning them, Mrs. Isaac Smith, Eugene, Ont., writes:—"I have been using Baby's Own Tablets ever since baby was a month old and have found that they reach the spot and do more good than any other medicine I have ever tried. I always keep the Tablets in the house and would advise all other mothers to do so." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Little Helps For This Week

"Make sure thy friend."—Proverbs vi. 3.
Believe me better than my best, And stronger than my strength can hold. Until your royal faith transmutes My pebbles into gold.

Elizabeth Stuart Phelps.
To win and hold a friend, we are compelled to keep ourselves at his ideal point, and in turn our love makes on him the same appeal. All around the circle of our best beloved, it is this idealizing that gives to love its beauty, and its pain, and its mighty leverage on character—its beauty, because that idealizing is the secret of love's glow; its pain, because that idealizing makes the constant peril of its vanishing; its leverage to uplift character, because this same idealizing is a constant challenge between every two, compelling each to be his best. "What is the secret of your life?" asked Mrs. Browning of Charles Kingsley; "Tell me, that I may make mine beautiful too." He replied, "I have a friend."
—William Channing Gannett.

Women and Asthma. Women are numbered among the sufferers from asthma by the countless thousands. In every climate they will be found, helpless in the grip of this relentless disease unless they have availed themselves of the proper remedy. Dr. J. D. Kellogg's Asthma Remedy has brought new hope and life to many such. Testimonials, sent entirely without solicitation, show the enormous benefit it has wrought among women everywhere.

Little John was interested in the rafters on the sleeping porch. "What are those round things Daddy?" he asked.
"They are knot holes, Son."
"Well, if they are not holes, what are they, Daddy?"

Radio Sets Installed

Prisoners At Sing Sing Prison Can Listen In

In each of the 1,800 cells of the new extension at Sing Sing Prison is a radio receiving set, after the manner of the ultra-modern metropolitan hotels. The installations have been made. It was officially completed today, following reports by prison employees, and in the future convicts with terms of from two years to life may listen to concerts, to news of the outside world, sermons and bedtime stories.

The guests of the state of New York may listen in, but they may not tune in. They must listen to what comes over the air from the central receiving station in the prison auditorium, whether the program be to their taste or not. The privilege was extended after the new rules, curtailing motion picture theatre visits from seven nights a week to two, went into effect.

The Mutual Welfare League bears the expense of installing and maintaining the radio equipment.

Making Trans-Atlantic Flight

Passengers On Lines Saw Swan In Mid Ocean

Passengers aboard an ocean liner, at Southampton, reported observing a trans-Atlantic "flight" which had not been heralded in news dispatches. In mid-ocean they met a great white swan, with neck outstretched and wings flapping. The swan was apparently making for the nearest land and did not take refuge aboard the ship, which was more than 800 miles from the coast of Ireland when the bird was sighted.

Minard's Liniment For Neuritis.

An Overworked Dog
A Chanute ice-cream manufacturer advertised that he would give one free to every boy who called at the plant and brought along his dog. One dog was reported near collapse after assisting all the boys in one neighborhood to obtain their cones.

Have Splendid Record

Ontario's Flying Firemen Not Confined To Patrol Work

In addition to organized forces of land patrols, the Ontario Government is trying to safeguard the valuable forest reserves from fire by patrols from the air. Up to the end of August, air patrols employed by the provincial government had flown 9,900 hours or 3,200 hours more than the total flying time on a similar service last year. Not only do these flying firemen do patrol work, but when a fire is detected they land at a fire protective service station, load men and fire fighting material, and take them as near as possible to the scene of the fire.

The electric eel of Brazil and Guiana can administer a shock strong enough to overcome a horse.

Two Up-to-Date Stores With Fine Stocks

Personal and Local

Mrs. A. E. Graham was a Calgary visitor last week.

Miss Goodwin of the hospital staff is at present in Calgary, and is being relieved by Miss Mary Kilgannon.

Prize winners at the K. of P. whitt-drive last Saturday evening were Mrs. Wm Burrows, Mrs. L. Carol, Mr. Bruce and M. Dougherty.

A very fine moving picture of the new Dornier plane was shown in the Fox News at the Palace theatre last Friday and Saturday. It has a capacity of 100 passengers, and is planned for Trans-Atlantic travel.

At St. Alban's, Coleman, on Oct. 8, in the presence of two witnesses, George Henry Bradley of Crow-Nest Lake, Coleman, and Eva Letts of Victoria, B. C. (late of Bedford, England) were married by the Rev. A. D. Currie.

Mr. Melville Anderson, of Anderson & McLean, eight specialists, of Calgary, announces next visit to G. R. Powell's, Coleman, Thurs. Oct. 31. 20 years experience in regular visits assure you of satisfaction in all optical work.

An old saying is to the effect that "The Lord helps those who help themselves." If the party incautious who has robbed a few coal boxes around town, he will need all of the Lord's help to help him recover. It won't be any police court for him.

You'll require some really good personal greeting cards to send to your friends. The Journal can supply you at from \$2.00 a dozen from a hundred or more styles. Why use cards of a stereotyped pattern when you can obtain something better? They may cost a little more, but it is worth it when you send a card only once a year. Why not send the best!

An appreciative audience enjoyed the concert of the Georgian Singers on Saturday. The four entertainers include Miss Beatrice Haworth, pianist, whose selections were excellent; Miss Allie Elcott, whose beautiful selections showed exceptional talent and sweetness of tone; Horace Chapman, tenor, and John Edmondson, baritone. They came under the auspices of the United Church ladies aid. On Sunday morning three of the company took part in the church service here.
